KEY FINDINGS

January 20, 2022 CENLA Economic Dashboard

COVID-19

Region 6 (central Louisiana) has 42.4% of the population fully vaccinated, up from 41.2% in mid-December. Rapides and Avoyelles continue to have the highest percentage of completed vaccinations in Region 6 at 47.4% and 45.5%, respectively. The 5th wave which started in December appears to be weakening and showing signs of leveling, indicating a peak may be in the near future. A look at the various age groups shows 18-29 year olds leading in cases, followed by 30-39 and 5-17 year olds. Region 6's positivity rate is 22% compared to 27% for the state. While hospitalization in the 5th wave have now exceeded the 4th wave, deaths have remained relatively low.

EMPLOYMENT

In November 2021, 61,340 were employed in the Alexandria metro area, an increase of 236 from October but 275 below last year at this time. Employment remains well above the metro area's three-year historical average of 60,219. The Alexandria labor market remains tight with 5,652 openings for 1,909 unemployed. It's unemployed-to-job-opening ratio of .33 means there are three jobs for each unemployed. Every metro area in the state had more job openings than unemployed. The unemployment rate in Cenla fell to 3.6% in November compared to 3.0% in Alexandria and 4.1% in statewide.

2020 Census data shows every parish in central Louisiana declined in population between 2010 to 2020 with central Louisiana's population declining -3.5%, compared to -2.7% for the state. Catahoula has the largest local percentage decline at -14%, while Grant and La Salle had the smallest declines at -0.6% and -0.7%, respectively.

KEY FINDINGS

January 20, 2022 CENLA Economic Dashboard

CONSUMER SPENDING

Changes in consumer spending are measured by changes in sales tax revenue. Sales taxes collected in December reflected activity in November. Consumer spending in November was lower in four of the eleven jurisdictions reporting, ranging from -10% to 9% from the previous month. On the other hand, all jurisdictions are still reporting sizable year-to-date gains, ranging from 7% for Pineville to 44% for Catahoula. Vehicle sales were down across all five parishes that report vehicle sales tax revenue. However, vehicles sales for the year exceeded last year's level, ranging from 11% in Natchitoches to 24% in Rapides.

Online sales tax revenue for Cenla was 62% higher in December than last December. In Rapides, \$635,00 in taxes were collected from online sales compared to \$386,000 last year, marking a 65% increase. Evangeline saw an 87% increase while Natchitoches saw an 88% gain in online sales tax revenue. For 2021, \$16.9 million in sales tax was collected from online purchases in central Louisiana. Online sales taxes collected in December reflects sales activity in November.

TRAVEL

The adverse impact on travel from the 5th wave can be seen in air passenger traffic and restaurant reservations. Nationally, air passenger traffic in December declined -1.1% from November after posting several monthly gains. Nevertheless, U.S. air passenger traffic in 2021 was 580 million, a 79% increase from 2020, but still -37% below 2019. Dining reservations which had been in a new uptrend since September 1 started a new downtrend in December, according to OpenTable data which largely monitors the New Orleans area.

KEY FINDINGS

January 20, 2022 CENLA Economic Dashboard

PERMITS

Because of the volatility of monthly data, year-to-date permit valuations presents a clearer picture of local construction. Commercial permits in Alexandria are up 35% for the year while the value of residential permits are up 50%. Residential permits in Alexandria totaled \$2.1 million in December, up 18% from November but down -6% from a year ago. So far this year, permit valuations issued in Allen are up 85%, Evangeline 149%, and Rapides 458%. Permit valuations in Pineville and Avoyelles are down -41% and -23%, respectively, for the year.

HOUSING

The US Lumber Price Index in November increased for the third consecutive month. In December 2021, the Index increased 16% from the previous month and stood 19% above year ago prices. Housing market data has been revamped in this month's issue of the Dashboard. While data on the Alexandria housing market remains, data for Natchitoches, Fort Polk (Leesville), and Opelousas have been included to give a broader representation of the central Louisiana housing market.

NEW BUSINESSES

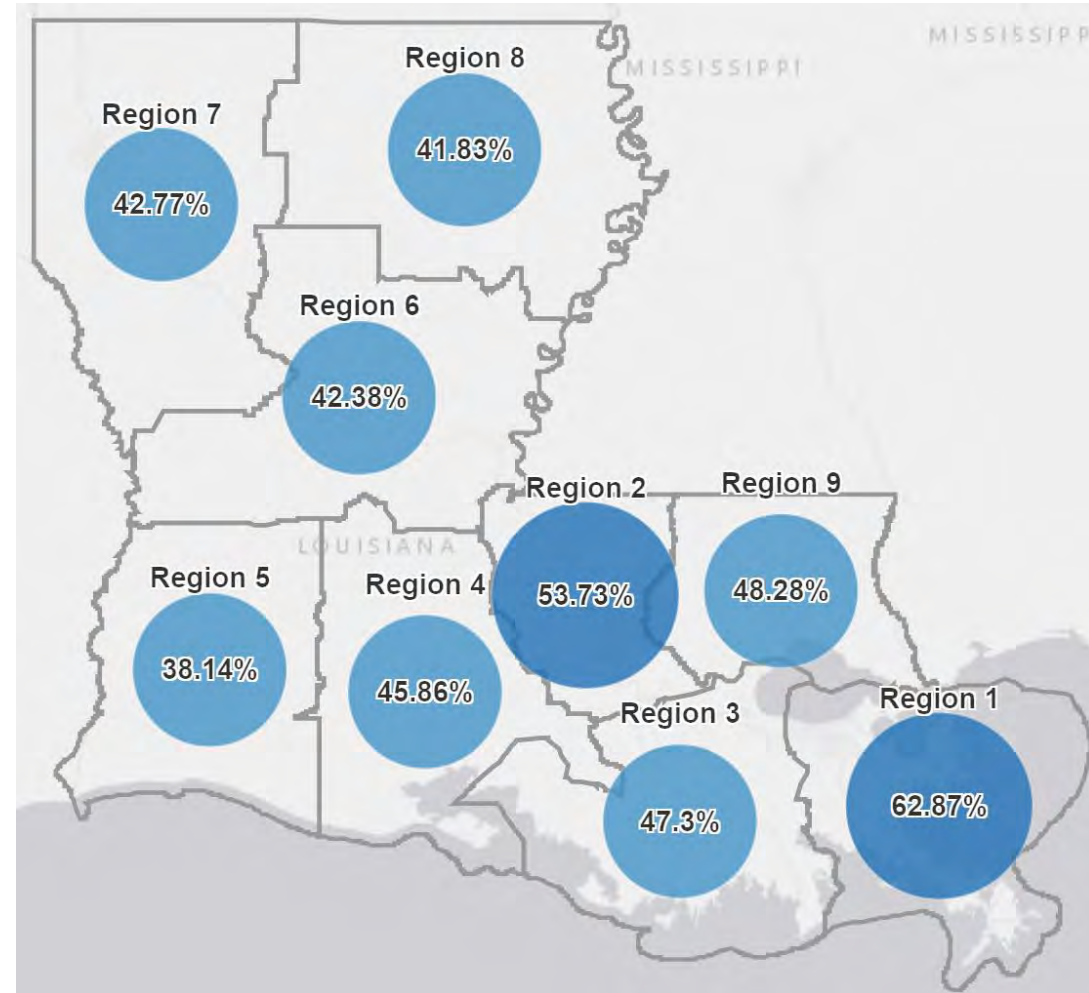

The recent entrepreneurial trend that started with the pandemic in 2020 in Rapides and Louisiana continued in 2021, according to data from Rapides Parish Sales and Use Tax Department and the Census Bureau. Rapides experienced a 29% increase in business applications last year, from 402 in 2020 to 518 in 2021. Likewise, 100,202 new business applications were filed in Louisiana in 2021 compared to 84,564 in 2020 and just 54,181 in 2019. .
