KEY FINDINGS

May 2023

COVID

With the World Health Organization's declaration of the end of the Covid-19 global public emergency, the CENLA Economic Dashboard will no longer provide Covid updates. As shown in the final update, all sections of the state are at the lowest level of risk.

EMPLOYMENT

According to preliminary data, employment remains robust in central Louisiana. Employment in the Alexandria labor market in March rose for the second straight month, rising to 63,532 or 1,164 above January's level. Employment in Natchitoches reached a post-pandemic high at 16,439. The unemployment rate fell to 3.0% in the Alexandria MSA and 3.7% in Natchitoches. Baton Rouge now has the lowest unemployment rate in the state, a position held by Alexandria throughout the pandemic. The unemployment rate for central Louisiana in March was 3.5%, compared to the state unemployment rate of 3.3%. The rate in Grant and Avoyelles was 3.1% and 3.8%, respectively, with LaSalle having the lowest in the region at 2.6%.

The labor market in the Alexandria MSA remains the tightest in the state with three job postings for each unemployed. The state ratio was 0.53 in March, meaning there were two posting for every unemployed.

Both initial and continued unemployment claims are higher than a year ago. Initial claims are up 3% from April 2022, while continued claims are up 11%.

KEY FINDINGS

May 2023

PERMITS & HOUSING

Permit valuation data has been reorganized into a single page to provide a better overview of permits in Cenla. In the first four months of 2023, valuation of construction permits in Central Louisiana are down -31%. Permits year-to-date are down in all reporting jurisdictions except the City of Natchitoches with a 4% increase. Decreases range for -7% in Rapides to -54% in Avoyelles.

CONSUMER SPENDING

In March, consumer spending in central Louisiana remained strong as measured by sales tax revenue collected in April. On a month-over-month basis, every jurisdiction in central Louisiana saw increased sales in March with increases ranging from 20% in Evangeline to 103% in LaSalle. Likewise, consumer spending in every jurisdiction is ahead on a year-to-date basis, except Avoyelles and Evangeline.

Vehicle sales were up substantially in March compared to February in every parish reporting. The increase ranged from a low of 26-27% in Avoyelles, Evangeline, and Vernon to a high of 36-39% in Rapides and St. Landry. Natchitoches reported an increase of 43%. However, data for Natchitoches runs a month behind the rest of central Louisiana. So it reflects sales in February, not March.

Online consumer spending in central Louisiana slowed in March, according to collections in April. Although spending was up 6% from the previous month, it fell -2% below last year's level. Year-to-date, however, online spending continues to increase. In the first four months of 2023, online sales tax revenues were \$7.2 million, compared to \$6.1 million in 2022 and \$5.5 million in 2021.

KEY FINDINGS

May 2023

Higher mortgage rates continue to put pressure on the housing market, but the prospect of even higher rates has spurred buying in some areas. The 30 year fixed mortgage rate remained elevated in March and April, reaching a peak of 6.73% on March 9th. The weakness in the housing market continues to impact lumber prices. The US Lumber Price Index fell one percent in March and April, and now stands -32% below last year's level.

Home prices remain robust, despite rising interest rates. The median listing price in Natchitoches reached \$310,000 in April, while the number of days on the market fell from 95 to 59. The median and average listing prices were up in April in all local metro areas.

TRAVEL

Gasoline prices in the Gulf Coast region were up 9% in April compared to March, but remain -14% below a year ago. All four parishes reporting hotel occupancy data were up in April compared to March. For the year, Natchitoches and Vernon were up 24% and 27%, respectively.

NEW BUSINESSES

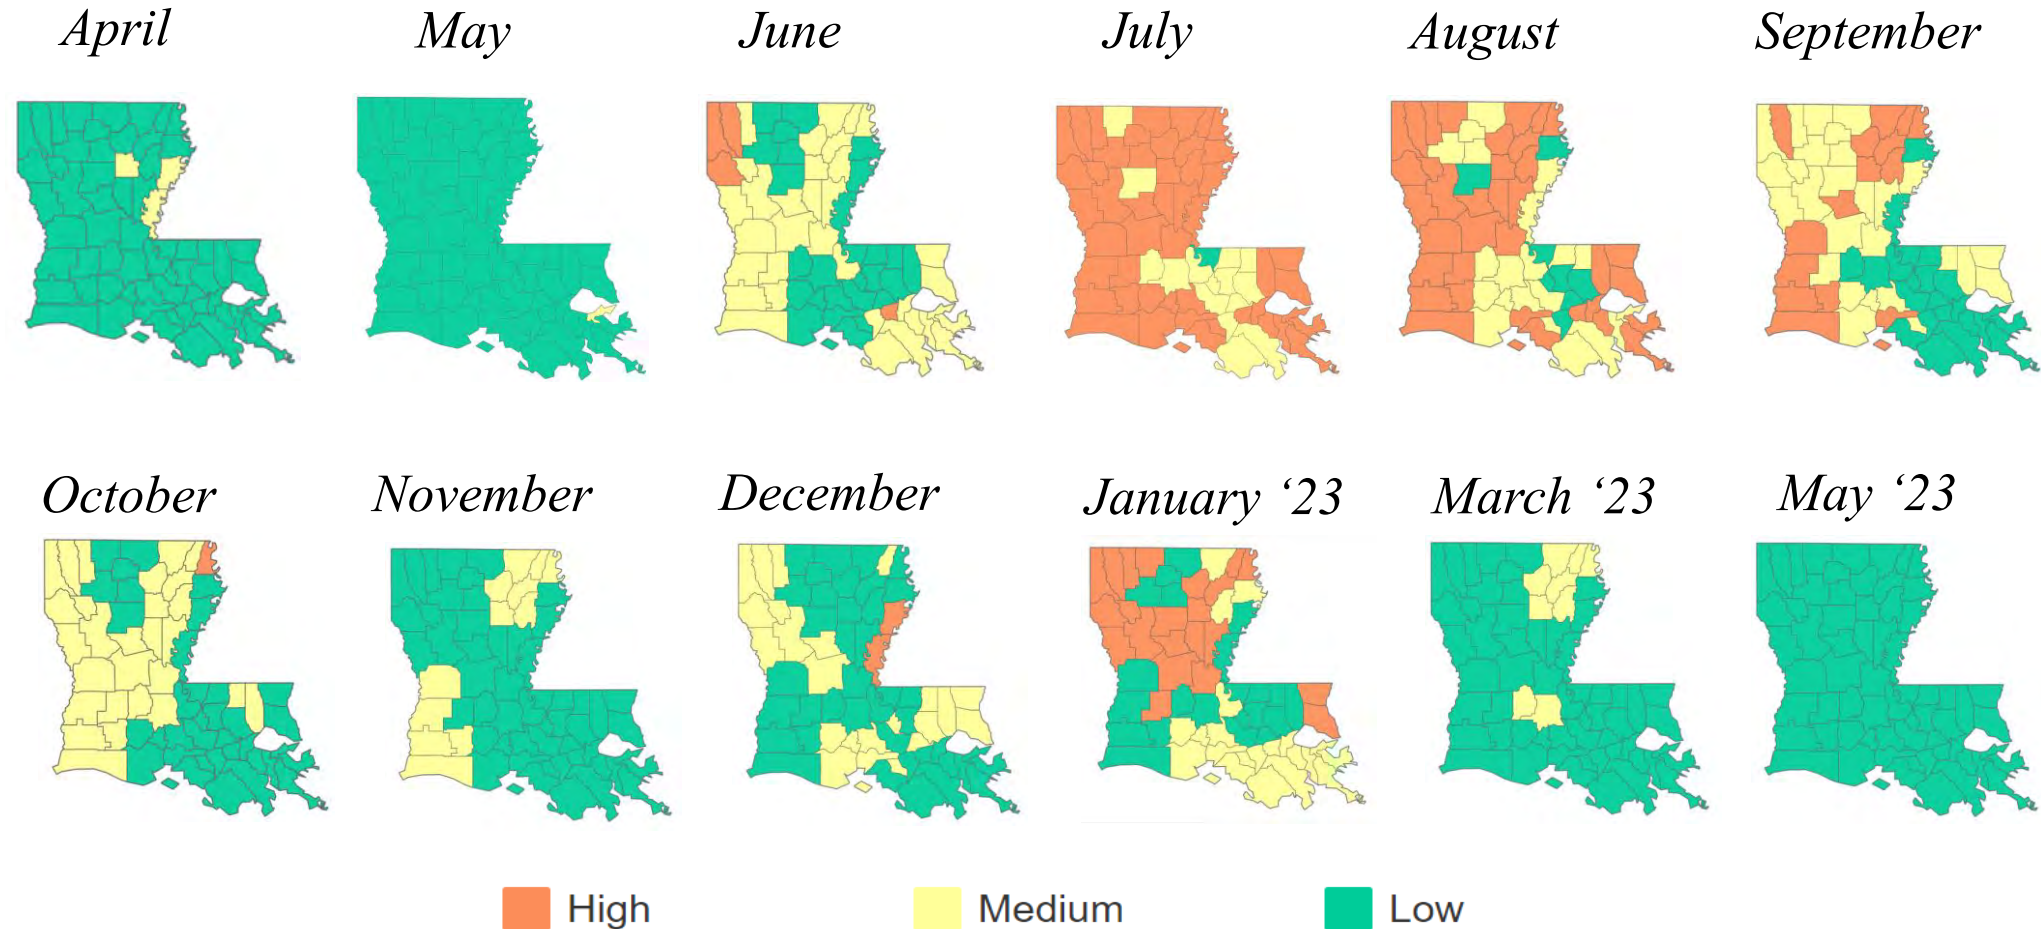

New business applications in Louisiana in April fell -11% compared to April 2022 and are down -6% so far this year compared to 2022. In Rapides, new business applications are down -3% compared to April 2022 and -1% year-to-date compared to last year.
